Kerman Bharucha, United States, 2017. Paperback. Condition: New. Language: English. Brand new Book. "Education from Infancy: Part 1 - an Early Start" is an extract out of "Education from Infancy: All 4 Parts." "Education from Infancy Part 1 - an Early Start" describes my very successful efforts at teaching Math and literacy to my grandson from the very earliest days of his infancy. For example, by the time he was 6-7 months old I had taught him to recognize and point out to me: - upper-case letters of the alphabet; - the basic numbers 0 through 9 in normal and upside-down perspectives from his point-of-view. This book is for: - new parents, grandparents or other caretakers who want to give their infant child a huge jump-start on his or her education; - the parents of the child that needs a helping hand with an understanding of numbers in general or with addition and subtraction concepts. Part 1 ends with your child learning how to: - verbalize and write out numbers up to 36 digits long; - perform real-world addition and subtraction. This book will get your child to understand Math, and therefore enjoy it. "Education from Infancy: All 4 Parts" is an integrated volume that provides a comprehensive introduction to basic Math and science that every child needs to know. Starting with fundamental ideas, the book covers various concepts in arithmetic, algebra, geometry, coordinate geometry and general science. All these topics are laid out in a logical progression in the table of contents of the various volumes. Start with a topic that is appropriate to your child's age and ability.
